Business Summary

Avation was formed in 2006 initially to support Skywest Airlines Ltd and was admitted to the Official List of the London Stock Exchange in November 2010. The Companys main activity is an operating lessor of commercial passenger aircraft to airlines across Europe, the US and Australia and currently is lessor of 19 passenger aircraft. Early this year the company entered into the ARAN Agreement to provide a fleet of up to 18 new aircraft which will operate along the East Coast of Australia. In the opinion of the directors, this was a transformational agreement for the Company.

Results Summary

I am pleased to present the Companys consolidated interim results for the six months ended 31 December 2011 (the Reriod+). Total consolidated revenue for the Period was £10.0 million which was an increase of 21% over the comparative period (31 December 2010: £8.3 million). The increase was primarily a result of the commencement of a stream of aircraft deliveries to Virgin Australia. As at 31 December 2011, three aircraft had been delivered. As at the date of writing this report, six aircraft have been delivered with a further nine aircraft planned for delivery over the next two years.

The Groups net profit after income tax attributable to the shareholders was recorded as £2.05 million; a 30 per cent increase over the comparative period (31 December 2010: £1.6 million).

The Group has invested £45.0 million on new aircraft during the Period. These aircraft were leased to Skywest Airlines (Australia) Pty Ltd (%kywest+) and Virgin Blue Airlines Pty Ltd (%kirgin+) pursuant to the Australian Regional Airline Agreement entered into by the Company with Skywest and Virgin on 10 January 2011 (the %RAN Agreement+). As a result, the Group¢ portfolio of aircraft has expanded by approximately 50% with total assets increasing to £150.8 million. The directors are pleased with this rapid rate of growth in asset base and revenues.

Current Trading

As at the date of this report there is significant business growth occurring with nine aircraft scheduled for delivery. Four ATR72-600s are scheduled for mid-2012 and a further five option aircraft to be delivered up to 2013/2014, the combined value of which is approximately £115m. Accordingly, the Company enjoys a visible growth profile stretching into the mid-term. The Company also owns option and purchase rights for further aircraft which provides further scope for additional expansion. The Company is also benefiting from the current market low base interest rates.

Subsequent Event

Subsequent to the end of the Period and prior to the date of this announcement, the Company purchased a further 12% of the issued share capital (the %Transaction+) of a subsidiary, Capital Lease Aviation Plc (AIM: CLA) (%CLA+). This price per share of the Transaction was less than the value of CLAs per share net tangible assets and the Transaction is earnings accretive to the Company by way of reducing the number of minority interests within the groups capital structure. Following the Transaction, the Company owns 62.07% of CLA. The Company issued 1,647,781 new ordinary shares in the Company as consideration for this purchase.

Business Risks

The Groups principal risks and uncertainties are consistent with those set put in the Prospectus submitted to the London Stock Exchange. It should be noted that the Company has a concentration of assets in a small number of customers.

I am pleased with current trading as the Company is in the process of profitably and substantially increasing the size of its asset base. I would like to take this opportunity to thank you, the owners of this enterprise, for your support over this important period and look forward to updating you on the growth in the enterprise in the future.

The principal activities of the Company and its subsidiaries are the holding of investments involved in owning, leasing aircraft and trading of broadcasting equipment and procurement business. The Company also owns and leases aircraft in its own right. During the six month period ended 31 December 2011, the Group has commenced leasing aircraft to Skywest Airlines (Australia) Pty Ltd and Virgin Blue Airlines Pty Ltd pursuant to an agreement signed with Skywest Airlines (Australia) Pty Ltd and Virgin blue Airlines Pty Ltd on 10 January 2011.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES

This Interim Report has been prepared in accordance with the Disclosure and Transparency Rules (DTR) of the Financial Services Authority and in accordance with International Accounting Standard (IAS) 34 ±nterim Reportingq

The Interim Report does not include all the notes of the type normally included within the annual report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financial and investing activities of the consolidated entity as the full financial report.

It is recommended that the Interim Report be read in conjunction with the annual report for the year ended 30 June 2011 and considered together with any public announcements made by Avation PLC during the six months ended 31 December 2011.

The accounting policies and methods of computation are the same as those adopted in the annual report for the year ended 30 June 2011.

The preparation of the Interim Report requires management to make estimates and assumptions that affect the reported income and expense, assets and liabilities and disclosure of contingencies at the date of the interim Report, actual results may differ from these estimates.

The statutory financial statements of Avation PLC for the year ended 30 June 2011, which carried an unqualified audit report, have been delivered to the Registrar of Companies and did not contain section 498 of the Companies Act 2006.

The Interim Report is unaudited and not reviewed by the auditors.

The Interim Report does not constitute statutory financial statements within the meaning of section 434 of the Companies Act 2006.

3 SEGMENT INFORMATION

a) Segment reporting policy

A segment is a distinguishable component of the Group within a particular economic environment (geographical segment) and to a particular industry (business segment) which is subject to risks and rewards that are different from those of other segments.

The primary format, business segments, is based on the Groups management and internal reporting structure. In presenting information on the basis of business segments, segment revenue and segment assets are based on the nature of the products or services provided by the Group, information for geographical segments is based on the geographical areas where the customers are located.

Inter-segment pricing is determined on an arms length basis. Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly of corporate assets and liabilities or profit or losses items that are not directly attributable to a segment or those that cannot be allocated on a reasonable basis. Common expenses were allocated based on revenue from the Group.

Segment capital expenditure is the total cost incurred during the period to acquire segment assets that are expected to be used for more than one year.

b) Primary reporting segment . business segments

During the six months ended 31 December 2011, the Group was organised into two main business segments which are aircraft leasing and business procurement.

Other operations of the Group mainly comprise investment holding which does not constitute a separate reportable segment. There are no inter-segment transactions recorded during the financial period.

13 EVENTS AFTER THE BALANCE SHEET DATE

Subsequent to the balance sheet date, the followings occurred:

- a) The Group has entered into an agreement to acquire an additional two new ATR72-500 aircraft. These aircraft will be leased to Australian carrier Skywest Airlines, which will operate the aircraft on behalf of Virgin Australia, pursuant to a 10-year wet-lease contract.
- b) The Company has agreed to acquire 10,662,112 ordinary shares in aircraft lessor Capital Lease Aviation PLC (%CLA+), increasing its holding in CLAs issued share capital from 51.8% to 62.07%. The consideration for the acquisition of the CLA shares is the allotment of 1,647,781 new ordinary shares in the Company, representing 4.05% of the existing issued share capital of the Company.

PRINCIPAL RISKS

The Groups risk management processes bring greater judgement to decision making as they allow management to make better, more informed and more consistent decisions based on a clear understanding of risks involved. We regularly review the risk assessment and monitoring process as part of our commitment to continually improve the quality of decision-making across the Group.

The Groups principal risks and uncertainties are consistent with those set put in the Prospectus submitted to the London Stock Exchange.

The principal risks and uncertainties which may affect the Group in the second half of the financial year will include the typical risks associated with the aviation business, including but not limited to any downturn in the global aviation industry, fuel costs, finance costs, war and terrorism and the like which may affect our airline customersqability to fulfil their lease obligations.

The business also relies on its ability to source for finance on favourable terms. Should this supply of finance contract, it would limit our fleet expansion and therefore growth.

GOING CONCERNS

After making enquiries, the directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements. The financial risk management objectives and policies of the Group and the exposure of the Group to credit risk and liquidity risk are discussed in the annual report for the Group for the year ended 30 June 2011.

DIRECTORS

The directors of Avation PLC are listed in its Annual Report for the year ended 30 June 2011. A list of the current directors is maintained on the Avation PLC website: www.avation.net.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors confirm that, to the best of their knowledge, this condensed consolidated interim financial information have been prepared in accordance with IAS 34 as adopted by the European Union and that the interim management report herein includes a fair review of the information required by DTR 4.2.7 and DTR 4.2.8 namely

- an indication of important events that have occurred during the first six months and their impact
 on the Interim Report, and a description required by the principal risks and uncertainties for the
 remaining six months of the financial year; and
- material related party transactions in the first six months and any material changes in the related party transactions described in the last annual report.
